EXPLORER GUIDE SHEET

Xylophone

Materials:

Glass cups
Food dye
Water
A baton

Directions:

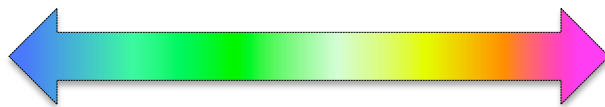

- Fill each cup with different amount of water
- Add a different color food dye to each cup
- Mix dye and water together
- Play your xylophone by tapping on the edge of the cups.

Helpful Hints:

- Changing the amounts of water in the cup will change the sound
- Use a cleaning brush, wooden spoon, or chopstick for your baton

Things to think about:

How did playing xylophone make you feel? Use the sense-o-meter to help you!

What body part do you use to hear the music made by the xylophone?

What kind of music did you make? Did you make up a whole song?
Write your song here:
