EXPLORER GUIDE SHEET

Water Beads

Materials:

A bowl
Water
Water Beads

Directions:

Soak your water beads in water for a few hours and watch them grow! When they're filled with water use your hands to explore them!

Helpful Hints:

- Use cups and pasta strainers to sort and play with your water beads
- Make patterns with different colors

Things to think about:

How did playing with water beads make you feel? Use the sense-o-meter to help you!

What body part do you use to play with the water beads?

Did you make a pattern with your water beads? Color in the circles below to match your pattern:
